

# REGISTRATION AND INSTALLATION

**CASHBOT.CLUB**

# PROLOG

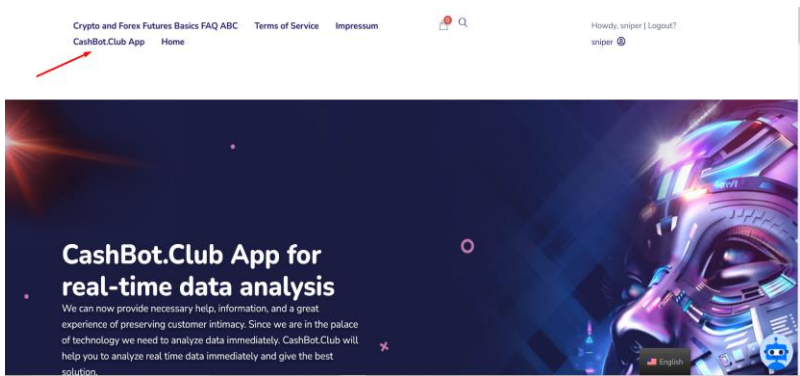

---

In this document you will learn how to register on the website:

<https://traders-view.services>

In addition to the purchase and initialization with the license of the bot, or for the visualization of graphics with and without sarcrow movements.

©Trades-King

As soon as we enter, they simply call up the CashBot.Club page in the menu. You select a package and perform the login and license purchase. This allows you to control your own stream and app.

**\*\* IMPORTANT:**

When you register on the website, in the username registration you write a user in **lowercase** and **without** special character types, such as: #-\_/' ÅØ< > ^ (), among others. Just abc and numbers.

The license number will be displayed after the payment process.

Total:

€0.00

## Your license key(s)

Free Cloud data for Bitmex and Oanda / Forex data for FREE Chart App as Arealine Chart

free14 

Already with the purchased license we access the previously downloaded application. And when you open it, the following home screen will appear.

In the "Username" field, we add our username that was specified at the time of purchase, and in the second field, the license that was also assigned at the time of purchase.

Access to the graphics-only license displays the markets available for manual trading.

An example of LUNAUSD is the following case:
